In almost every street of our city parents are lamenting the enlist-ment of their hapless sons, mere boys, hetween fourteen and seventeen years of age, who have been made drunk and then enlisted and robbed of every dollar of their bonnty. Cases are on record in which old, gray-headed men, tottering on the verge of the grave, have been carried, while intextent to a harber-shop, their half dved. the grave, have been carried, while intext-cated, to a barber-shop, their hair dyed, their general appearance spraced up with some semblance of fictitious juvenility, and then enlisted, their bounty money being the reward of the patriots engaged in this honorable business. Cripples, with ruptures, hernia, varicese veins, puimonary diseases, broken legs, broken arms, toothless. dear broken legs, broken arms, toothless, deaf, half sightless, hanchbacked, wry necked, half fingerless, decrepti, and dlotte have been received into the service of the United States in certain of the rural districts, the brokers in these cases seidom giving their victims more than twenty or thirty dollars ont of the three to tive handred dollars which they have reto five hundred dollars which they have received for them through the criminal negligence of the town or local anthorities.

It is they may have to divide with. It is high time that Government should in-tertere to put au end to this system, which, nachecked, will make onr soldiery hereafter b: known as the "most noble srmy of crippies." Half a dozen of the volunteer brokers should be sent to Fort Lafayette to commence with; snd, if it can be proved that any officers of the Government have been in complicity with them, those traitors in uniform should be either reasted alive or made Brigadier Generals. It never was easier to procure recruits of the best kind, !airly and honorably, if only a just system be adopted in their procurement. Thousands of hearty and patnetic young men are willing to enlist if approached in a proper manner. But under the system as now administered—and it is much worse in the North Carlot. the New England States-the brokers can obtain more for some tipsy, broken-down nu-fortnaste whom they can defrand ont of ninetenths of his bounty, than they can hope to receive from a sober, ciear-headed, fit volun-teer, who goes into the service with his eyes open and anxions to leave behind him when quitting home some provision for the support of his lamily. JEFFERSON CIRCUIT COURT-Fifth Day .-In the circuit court yesterday but a small amount of business was transacted. Margaret Burns was tried for grand larceny and found not guilty. The case of P. J. Nichol son, charged with malicious shooting, was coutinned. The next case called was that of Jacob Medard, charged with the murder of his father, seventy seven years of age, by starying him to death and exposing him to the cold. There was considerable difficulty in obtaining a jury, a large number who had been summoved having formed an opinion as to the innoence or gnilt of the party. A jury was at last impanneled, and about one o'clock the testimeny in the case was commenced. The entire afternoon was consumed in the examination of three witnesses. The case will be resumed this morning, and will no doubt occupy the entire day.

They employed the folks at a farm Col. McCook's Cavalry and Texians house near by to roast their turkeys, which was done, and the dinner passed off in splendid style. Soon after, however, nearly all the men were taken sick, and it was discov. ered that arsenie had been put in the turkeys. Ten officers and the men of two companies were badly poisened.
